“All of the Flowers of tomorrow are in the Seeds of today.” Proverb

Hello to All Gardeners,

As I write this we seem to be experiencing at the same time March Winds and April plentiful Showers- which will be good for our May Flowers!

I want to thank you those who were able to participate in our Community Educational Program on March 22nd. I thoroughly enjoyed it and deemed it a success. Shelly Prescott from State Botanical Garden did a splendid job and inspired us all to come visit. Thanks to Ruth Forrester and her team for the hospitality preparations of tables and delicious food and drink. For the challenge results in attendance Seven Hills came in first and Three Rivers for best percentage! Congratulations to both of these clubs!

Speaking of flowers... the Finance Committee with the approval of the Executive Committee has decided a Bulb Sale would be a fun, easy thing to do to help beautify our gardens. Please consider ordering some for you and to give to others. The order form with details is included in this publication.

Our next Federation Meeting is May 3rd with Monica Shepherd presenting on bees and pollinators. This will be a great program. Please remember that Federation meetings are for all- even visitors- so invite a friend to come for food, fellowship and a great program.
